

Workforce Health Profile

Workforce Health Profile is an aggregate health "snapshot" of the health characteristics of your workforce using information provided by your employees via our Personal Health Survey.

Workforce Health Profile

The Workforce Health Profile is a health "snapshot" of your workforce based on information provided, to us, by your employees using our confidential Personal Health Survey. The information contained in the Workforce Health Profile is intended to provide you an aggregate overview of the health characteristics of your workforce. For comparative purposes, your information is contrasted with other workforces across your marketplace and the United States.
